

WHY DO WE GO?

In 1999, the El Niño community in Tijuana began because of heavy storms and flooding. The Mexican government bussed people that lost their homes into that area and gave them a small piece of property to start the community. Since then, thousands of Refugees find open land and build with recycled garage doors, wood, or cardboard to make shacks. Since 2000, Kingdom Builders Ministry (KBM) has built over 54 churches & over 750 homes surrounding Tijuana. TFH has been able to come alongside and support them in carrying out their vision to reach more families!

OUR RESPONSE

By partnering with Kingdom Builders Ministry, we will get to assist them by working on projects like hosting a Youth Conference, as well as ministering to the people in their community, offering both spiritual & physical aid to that in need.
