## ABOUT MEXICO

Religion: 80% Roman Catholicism

Language: Spanish

Population: 130 Million

### Why Tijuana, Mexico & KBM?

In 1999 the El Nino community in Tijuana began as a result of heavy storms and flooding, the Mexican government bussed people that lost their homes into that area and gave them a small piece of property and a dwelling to start the community. Since then, thousands of Refugees find open land and build with recycled garage doors, wood, or cardboard to make shacks. Since 2000, Kingdom Builders Ministry has built 43 churches & over 700 homes surrounding Tijuana. Most of these families aren't able to afford to send their kids to school past the 6th grade. Kingdom Builders Ministry has also started a sponsorship program that provides for over 1000 kids in their community to get them through schooling.

### Our Response

By partnering with Kingdom Builders Ministry, we get to assist them on short-term trips by building homes and life-giving churches as well as ministering to the children in their community offering both spiritual & physical aid to that in need.
