ABOUT NEPAL

Religion: 81.3% Hindu; 1.4% Christian

Language: Nepali

Population: 28.9 Million

Why Nepal?

Nepal is among the poorest and least developed countries in the world, with about one-quarter of its population living below the poverty line. Nepal is heavily dependent on remittances, which amount to as much as 30% of GDP. Agriculture is the mainstay of the economy, providing a livelihood for almost two-thirds of the population but accounting for only one-third of GDP. Industrial activity mainly involves processing agricultural products, including pulses, jute, sugarcane, tobacco, and grain. Nepal was hit by massive earthquakes in early 2015, which damaged or destroyed infrastructure and homes and set back economic development. Political gridlock the past several years and recent public protests, predominately in the southern Tarai region, have hindered post-earthquake recovery and prevented much-needed economic reform. Additional challenges to Nepal's growth include its landlocked geographic location, persistent power shortages, and underdeveloped transportation infrastructure.

Our Response

We will partner with the local body of Christ to rebuild and restore lives in areas that have been affected by disaster and poverty. We will be partnering with Pastor Daniel in the himalayan region of Nepal. Their organizations is "underground", due to recent challenges in the local Christian church. While there we will be putting on conferences for several communities.
