

YOUTH LA DREAM CENTER

AUGUST 5 – 10, 2024

WHY LA DREAM CENTER?

Since 1994, the Dream Center has provided opportunities for people to transform their lives and has been serving communities in need through its various programs. Their outreach programs are designed to reach the most underserved communities in Los Angeles and provide immediate resources like food, clothing, and other essential items. They reach thousands of people in need multiple times every week through their mobile food banks and community relationship-building program, Adopt A Block. Transitional housing programs are available to those who are looking to make significant changes in their lives to heal from past trauma, fight and overcome addictions or other life-controlling issues like homelessness, and develop the life skills to transition back into society successfully with a renewed sense of purpose, and a healthy mind, body, and spirit.
